

The background of the image features a glowing incandescent lightbulb. The bulb is oriented vertically, with its base at the bottom and its glass globe at the top. The interior of the bulb is visible, showing the filament and the support structure. A bright, warm light emanates from the top of the bulb, creating a soft glow. Overlaid on the image is a faint, light blue circuit board pattern. The pattern consists of several lines and small circles, resembling a schematic or a printed circuit board. The lines are thin and delicate, and the circles are small and evenly spaced. The overall color palette is a mix of warm yellows and oranges from the lightbulb, and cool blues and greys from the background and circuit overlay.

STUDENT COUNSELLING MANAGEMENT SYSTEM

PURPOSE

- ❖ The Student Counseling Management System project creates a simple way to manage student counseling services.
- ❖ It helps students get support easily, reduces paperwork, and makes counseling services more efficient.
- ❖ The system also helps universities make informed decisions and improve student well-being

The screenshot shows a web application window titled "Additional Information". It contains four dropdown menus and two buttons. The first dropdown menu is labeled "Category:" and has "Public" selected. The second dropdown menu is labeled "Distance Learning:" and has "Yes" selected. The third dropdown menu is labeled "Recognized by HEC:" and has "Yes" selected. The fourth dropdown menu is labeled "City:" and has "Islamabad" selected. Below the dropdown menus are two blue buttons: "Save" and "Access".

Field	Value
Category:	Public
Distance Learning:	Yes
Recognized by HEC:	Yes
City:	Islamabad

SELECTION FORM:

- ❖ CATEGORY
- ❖ DISTANCE LEARNING
- ❖ RECOGNIZED BY HEC
- ❖ CITY

DATABASE:

MySql

```
mysql> create database projectlab;  
Query OK, 1 row affected (0.02 sec)
```

```
mysql> show databases;
```

Database

ADVANTAGES:

- ❖ Improved student support
 - ❖ Data-driven decision-making
 - ❖ Scalability and flexibility
 - ❖ Reduced student burdens
 - ❖ Personalized student support
- 
- 

SUMMARY & CONCLUSION :

- ❖ This project aims to create a helpful and easy-to-use system for managing student counseling. The system will help students in their admission queries.
- ❖ Assist students in choosing courses, planning academic paths, and achieving educational goals.
